Conference Rooms

The Conference Rooms are centrally located on ground level between the main terminal facility and the Helibase. It is accessed from the open Public Lounge in the public section of the terminal or by USFS personnel from the south section.

Its design is highly flexible – in seating arrangements and partitioned room layout – accommodating a wide variety of uses and seating up to 100 people.

Audio/visual equipment and in-floor IT terminals are installed to meet the needs of almost any group or meeting and a full-sized kitchen service counter can be opened to serve meals or beverages to guests.

Contact us about renting this facility for your group.

For more about scheduling or any other general information contact:
