Lake County CHIP Minutes

Date and time: July 12, 2018 – 3:00 p.m.

Place: Lake District Hospital, Penn Wilbur conference room

Partnership members and staff in attendance: Arvinder Singh, Rod Harwood, Alanna Chamulak, Jamie Davis, Paul McGinnis, Brooke Kelleher, Janine Simms, Janet Leslie, Dianne Clay, CeCe Montgomery, Francie Winters, Susan Campbell Charlie Tveit, Kristi Albertson, Michael Acosta, Mary Ann Wren (phone), Cathy Pike (phone)

Arvinder Singh, CHIP coordinator, called the meeting to order at 3:07 p.m. and asked all members to introduce themselves.

Mr. Singh presented the June 2018 minutes for approval. Prevention coordinator Francie Winters moved to approve the minutes as presented. Community volunteer CeCe Montgomery seconded the motion. It passed unanimously. Mr. Singh then presented the May 2018 minutes for approval. Jamie Davis with Oregon State University (OSU) Extension Lake County moved to approve the minutes as presented. Mrs. Montgomery seconded the motion. It passed unanimously.

RCAC report: Paul McGinnis, Greater Oregon Behavioral Health Inc. (GOBHI) coordinated care organization integrations director, shared information from Eastern Oregon Coordinated Care Organization (EOCCO) Regional Community Advisory Council. EOCCO will get back 100 percent of the money withheld, which Mr. McGinnis thinks is an additional \$111,000 or so. Of the total amount available to the CCO, the LCACs get 6 percent. Mr. McGinnis urged the Lake County CAC to plan its LCAC grant proposal early. He also reiterated that EOCCO will not accept overlapping proposals where funding in one proposal depends on funding from another.

- **Social determinants of health:** The CCOs still don't know what Oregon Health Authority (OHA) is going to direct them to do regarding social determinants of health. It's possible that LCACs can use a portion of the 2019 LCAC funding to address social determinants in their communities. Somewhere between 30 and 40 percent of the LCAC dollars can be spent addressing one incentive measure, and the remaining amount can go toward what the LCAC wants to see done in the community — keeping in mind that LCAC funding is intended to benefit EOCCO members.
- **Public health:** There may be a pot of money that only public health departments can go for. Public health still will not receive per member per month payments from the CCOs.
- **CCO 2.0:** The governor's two main goals are addressing social determinants of health and better integrating mental health with primary care.

EOHLA update: Alanna Chamulak said Eastern Oregon Healthy Living Alliance is working on a new initiative: Healthy Eating and Active Living (HEAL). This initiative includes bringing the national Hike It Baby program, which encourages families with children 5 and younger to hike, to Lake, Umatilla, Wheeler, and Harney counties. Those counties' obesity rates are higher than the state average. Miss Chamulak said the goal is to launch the program in March or April and, depending on the weather, continue it through November. As EOHLA pursues funding for the program, it may need a letter of support from the Lake County LCAC.

CHIP updates:

- **Teen health fairs:** North Lake's health fair is set for 12:30 to 3:30 p.m. October 3 in the North Lake School gym. Lakeview's fair is from 1 to 4 p.m. November 7. Paisley will bus students to Lakeview for the fair,

but they won't arrive until about 3 p.m. Mr. Singh asked whether the group should consider extending the fair to give Paisley students longer at the event. Mrs. Winters suggested starting the fair earlier. Grant writer Kristi Albertson asked if Paisley kids could be released earlier. Mrs. Davis suggested contacting teachers who might let their students out early to attend the fair to help stagger students going through the fair.

- **Dental screenings:** Mr. Singh has been speaking with Lake County School Board member Darwin Johnson and plans to talk to the board about the importance of dental screenings, fluoride varnish, and dental sealants in late July. Screenings and sealants will be provided during the teen health fair, and Mary Ann Wren with Advantage Dental said they will be able to offer services during school hours this fall at Lakeview elementary schools.
- **Developmental screenings:** Mr. Singh reported that the clinics are going through diapers quickly. He will report numbers at the August meeting.
- **Prenatal/postpartum care:** The grant-funded program went live July 1. This included creating a workflow from Lake County Public Health to the clinics to schedule women for prenatal appointments during their first trimester and creating a tracking system for the incentives to encourage women to seek timely prenatal and postpartum care. Mr. McGinnis suggested that if a woman presents at Public Health with a negative pregnancy test, that is a good time to discuss effective contraception use.
- **Summer lunch program:** As of this week, the fifth week of the program, the summer lunch program has served more lunches in 2018 than it did in 2019, Mr. Singh reported. Mrs. Winters said they tie-dyed 54 T-shirts at the kiddie park July 13, "and that was a slow day." Mrs. Davis shared some challenges she saw at the pool park site with lunches arriving late. Mr. Singh and Miss Albertson said there have been some cases this year of volunteers not showing up. Mr. Singh said the program struggled one day this week because the food delivery truck broke down and couldn't deliver supplies to the kitchen.
- **Diabetes support group:** Lake Health Clinic nurse Janine Simms said pharmacist Jeff Howard was the last guest speaker. The next speaker is Dr. Cheryl Bongiovanni, Lake Health District's wound care and vascular specialist. There is a core group of about 12 attendees.
- **i Tri:** Mrs. Davis said the triathlon training program has completed three of seven sessions, including an opening celebration, a pool day, and bike day. The turnout has been larger than expected.

FoodCorps: Service member Brooke Kelleher finished buying materials for school gardens with a Farm to School grant Lake Health District received. The Fremont Elementary garden is scheduled for completion in two to three weeks. She has been working with the summer lunch and i Tri programs. Miss Kelleher will return as the FoodCorps service member next year.

Older Adult Behavioral Health Initiative: Rod Harwood, older adult behavioral health specialist with GOBHI, reported good collaboration during that morning's Lake County Older Adult Collaborative. Charlie Pike, Lake County veteran services officer, was the guest speaker. Next month, Mr. Harwood has scheduled two trainings in Lake District Hospital's Strieby Conference Room: Dementia, Delirium, and Depression (August 9, 1:30 p.m.) and Navigating APD (Aging and People with Disabilities) for Complex Behavioral Health Clients (August 10, 9 a.m.). Both classes will be taught by Nirmala Dhar, the OABHI coordinator for OHA's Health Systems Division.

Grants: Partners for a Hunger-Free Oregon, a nonprofit that has supported Lakeview's summer lunch program, is going to be in Lakeview July 25 for a listening circle. They want to hear from parents about their experience with school lunch programs. Miss Albertson said she is working with Lake Health Clinic and Lake District Wellness Center to apply for a grant from the Health Resources and Services Administration (HRSA) for opioid planning. The grant will help the health district build a collaborative to find gaps in Lake County's opioid prevention, treatment, and recovery services, and create a comprehensive strategic and workforce plan to address the gaps. The partners hope to purchase naloxone and invest in Lake County transportation as part of this grant. They also hope that if they get their foot in the door with the planning grant, they'll be poised for a services grant in the future.

Mr. Singh adjourned the meeting at 4:30 p.m. The next meeting is scheduled for August 9, 2018, at 3 p.m. at Lake District Hospital Penn Wilber Conference Room.
