ORGANIZATION

## 2021-2022 Community Health Plan (CHP) Grant County Community Advisory Council (LCAC)

### Priority Issue:

#### Wellness Promotion and Prevention

- Promote equitable access to community education regarding comprehensive health care (behavioral, physical, and oral health) across the lifespan.
- Increase community awareness of preventive healthcare and the impacts of Social Determinants of Health and trauma on health to reduce stigma and promote utilization of comprehensive healthcare.
- Promote understanding and improvement of Social Determinants of Health to improve health equity for vulnerable populations in the community.
- Improve the accessibility and efficacy of healthcare provided in our community through promotion of trauma-informed practices.

### Problem to be solved:

Reduce the negative impacts of Social Determinants of Health in our communities.

**Measurement:** The LCAC will review EOCCO Incentive Measures through local and regional EOCCO Progress Reports. The LCAC supports Wellness Promotion and Prevention community activities, trainings, workforce development and events. The CAC will provide guidance of tracking and documentation of total population engagement along with relevant community data i.e. Community Health Assessment, Grant County Health Department Assessment, Blue Mountain Hospital Health Assessment, Strawberry Wilderness Community Clinic data and additional sources as provided.

### Goals:

Updated 5/22/19  
Updated 11/18/20  
Updated 05/19/21

- **Community Health Improvement** - LCAC members will collaborate with community partners, health providers, EOCCO Consumers and representatives, early learning providers, service agencies, educators, and local business owners to increase community health awareness, to improve SDH, and to promote the value of prevention education and screenings for all ages.
- **Incentive Metrics Improvement** - LCAC members will support the work of care coordination provided by **Healthcare Providers** as they work with EOCCO/OHP Members to utilize primary care preventative screenings and health services as outlined in the incentive measures.
- **EOCCO Member Engagement** - LCAC will invite and encourage EOCCO Consumer Member participation and involvement related to community health improvement.

## Objectives:

### Metrics improvement and coordination of care

The LCAC will continue to support collaborative efforts between community partners, hospital, public health, behavioral health, oral health and/or primary care to reduce barriers to access, coordinated care, integrate new services or workflows

### Community Health Improvement

- Behavioral Health – will continue to support educational opportunities for our communities.
- LCAC will support community education and trainings related to SDH.
- LCAC will support Oral Health projects that increase access to preventative services by supporting and collaborating with community partners.
- LCAC will collaborate with Eastern Oregon Healthy Living Alliance (EOHLA) to support local healthcare prevention projects.

- Grant County Family Health Fair/Family Fun Day

**Identify gaps:**

- LCAC community outreach, awareness, and engagement

**Budget Needed:**

EOCCO Incentive Funds: The LCAC applies for EOCCO Community Benefit Initiative Reinvestment Program funds to support programs and projects within this Community Health Plan.

Funding is necessary to support partnership collaboration used in support of many of the local prevention- education community events and trainings.

LCAC operation funds are necessary to continue to support the monthly LCAC meetings, coordinator and identified gaps.

CAC Members agree to invest EOCCO CAC Operation funds and CBIR awarded funds in the local economy as much as possible.
